

## Remarks

Upon entry into national phase in the US, in order to better fit the application to accepted US patent practice, applicant amended the claims pending in the application to remove multiple dependencies, and to better and more clearly define applicants' contribution.

A search key 404 described on page 7 was inadvertently omitted from Fig. 4. Applicant submitted a corrected drawing sheet 2, with a corrected Fig. 4, correcting the error. Applicant thus brought the drawing into conformance with the specifications and submits that no new matter was introduced. Applicant also corrected several minor errors in the written description of the invention.

Applicant respectfully requests that the above amendment be entered into record and that the application be examined in accordance therewith.

Respectfully submitted
